

	RISK ASSESSMENT FOR CORONAVIRUS (COVID 19)								COVID 19)		
	Area of Activity being Assessed: COMPLETE SERVICE UNIT										
Date of Assessment	: August 2020 - O	ngoir	ıg						ed By: Management and Staff		
Identified Hazards	Action Taken	Freq	uency	of Risk	Who may be	Lev	Level of Harm		Control Measures	Frequency of checks	
		Low	Med	High	harmed	Low	Med	High		Circuito	
Pre-Opening Exposure to cleaning chemicals	Prior to re-opening, a thorough clean will be completed. Existing process for cleaning in place and appropriate PPE will be issued to staff.		X		Employees		Х		All cleaning should be conducted in accordance with Existing COVID 19 guidance for Childcare settings along with Infection prevention and control guidance.	Cleaning has and will remain a daily requirement, however this will become more frequent and regular.	
Pre-Opening Staff/children. Carers /parents unaware of new processes	Settling in of Staff / Children etc.		X		Employees Children/ Parents/ Carers etc. Visitors / Contractors		X		A map could be displayed in the setting detailing entry/exit points and new circulation patterns, for use by staff and parents. Social stories and videos shared with children in advance to explain what will be new, and what the return to ASC will be like. Clear signage and colour coding on walls and floors could be implemented prior to return to help with wayfinding, along with taping off specific areas. Appropriate visuals for children. These will need to be clear and child-friendly to	Guidance and recommended risk control measures will be sourced directly from the government guidelines and reviewed as and when updates are published	

				enable them to be understood by as	
				many children as possible, taking account	
				of any visual impairment's children may	
				have. These could include signs that	
				display meaningful pictures or symbols.	
				Any signage that involves direct	
				interaction from children will need to be	
				cleaned regularly and additional methods	
				of communication should also be	
				considered.	
Contact with parsons	If an employee, child		malayaas		Guidance and
Contact with persons	or known visitor tests		imployees	Once symptomatic, all surfaces that the

	from that point.			telephones, etc.	
				Public areas where a symptomatic	
				individual has passed through and spent	
				minimal time in (such as corridors) do	
				not need to be specially cleaned/	
				disinfected.	
				If a person becomes ill in a shared space,	
				these will be cleaned according to	
				current recommended workplace	
				legislation and practice.	
				Persons worried about symptoms should	
				use the NHS 111, only if they cannot get	
				help online, and NOT go to their GP or	
				other healthcare centre.	
				other healthcare centre.	
				Where eligible, employees are strongly	
				recommended to take part in the	
				government's testing programme for	
				COVID-19 and ensure that the results are	
				communicated to senior management. If	

			the test results reveal that the individual has contracted COVID-19, action will be taken as prescribed in the Emergency Action Plan and a decision will be made on when they can return to work.	
Contact with persons who may have been exposed to coronavirus	Immediately follow the guidance as provided by the Government	Employees Children/ Parents/ Carers etc.	Employees or children who are suspected to have coronavirus are to self-isolate in accordance with the government guidance.	Regular reviews and updates must be monitored.
		Visitors / Contractors	Other persons who may have been exposed to coronavirus will also be instructed by the government guidance to self-isolate.	
Contact with packages (food, stationery, post deliveries) or items handled by persons who may have been exposed to coronavirus	All existing risk assessments will be maintained and followed	Employees	There is currently no perceived increase in risk for handling of post or freight from specified areas. All staff are to maintain good hygiene in line with the organisation's HACCP.	Regular reviews of process and procedures.
			Posters promoting good hand hygiene will be displayed in food areas.	
Disposal of waste	All existing processes to discard waste will be followed as normal.	Employees Children/ Parents/ Carers etc.	All waste that has been in contact with the relevant person, including used tissues, and masks if used, should be put in a plastic rubbish bag, and tied when	Regular reviews of process and procedures.
	If 'waste' that has been identified as being potentially contaminated by a coronavirus sufferer contact the Health	Visitors / Contractors	full. The plastic bag should then be placed in a second bin bag and tied. It should be put in a safe place and marked for storage until the result is available. If the individual tests negative, this can be put in the normal waste.	
	Protection Team for further instructions		Should the person test positive, the Health Protection Team will provide instructions about what to do with the waste.	

Service open	Additional process	I F	Employees	Children will always be in the same small

	1 2 3 1 11 2 3			each group and, as far as possible, these
				stay the same during the day and on
				subsequent days.
				Subsequent days.
				Basic infection controls should be
				followed as recommended by the
				government:
				Cover your mouth and nose with a
				tissue or your sleeve (not your
				hands) when you cough or sneeze.
				Put used tissues in the bin
				straightaway.
				Wash your hands with soap and
				water often – use hand sanitiser gel
				if soap and water are not available.
				Hand sanitiser to be available in each
				room (in use), entrances and exits of
				buildings, and near toilets.
				Try to avoid close contact with
				people who are unwell.
				Do not touch your eyes, nose, or
				mouth if your hands are not clean.
				We will ensure that all frequently
				touched surfaces, equipment, door
				handles, handrails, tabletops,
				electronic devices (i.e. phones) and
				toilets will be cleaned thoroughly
				several times a day.
				Staff should use their own
				cup/cutlery and ensure these are
				cleaned straight after use.
				Each setting must be cleaned every
				night or when children's sessions
				change, in preparation for a new
				group of children being in the next

	day/session.
	Toys and equipment that children
	access should be cleaned each day –
	between sessions and at the end of
	the day or before the session begins
	 using standard detergent and
	disinfectant.
	Children will require comfortable
	areas to play, however any soft
	furnishings such as throws should be
	removed, unless clearly required. If
	required, they should be used for
	individual children and should be
	washed after use. Where children
	sleep or nap in the setting, children
	should have individual bedding,
	stored in individual bags, and this
	should be laundered frequently and
	as a minimum weekly.
	Children will only be permitted to
	bring toys in from home where the
	toys can be thoroughly
	cleaned/washed/disinfected.
	We will maintain indoor space
	requirements:
	Where applicable, we will use area
	dividers to keep children in different
	parts of the room, and floor
	markings to assist staff with keeping
	groups apart.
	We will ensure the use of communal
	spaces will be managed to limit
	;
	mixing between groups as much as
	possible.
	We will ensure that staff who are
	symptomatic do not attend work.
	All persons are encouraged to
	frequently wash their hands and
	practice good respiratory hygiene
	(Catch it, Bin it, Kill it). This will
	include posters and fun activities for
	children to remind of methods.

	Where possible, staff meetings and
	training sessions should be
	conducted virtually, and staff will
	remain at a safe distance from each
	other during breaks, including in
	staff rooms or other staff areas in
	the setting.
	We will ensure that children are super- vised when washing hands.
	We will ensure that there is a good sup- The of disperse black and both support and the support and
	ply of disposable tissues throughout our
	setting.
	Where possible, we will ensure the
	availability of lidded bins, preferably
	operated by a foot pedal, and that
	tissues are immediately disposed in-
	to bins and that these are emptied
	throughout the day.
	We will communicate a policy on bring-
	ing items and toys from home (where
	this is absolutely necessary), including
	cleaning on arrival.
	We will reduce contact between parents
	and carers when dropping off and pick-
	ing up their children by limiting drop-off
	and pick-up to one parent or carer per
	family and staggering timings.
	We will not allow parents or carers into
	the setting unless essential and will ar-
	range for children to be collected at the
	door.
	We will keep windows open as far as
	possible to ensure ventilation and use
	outdoor areas as much as possible.
	We will limit external visitors to the set-
	ting and ensure that they only come into
	the building when absolutely necessary.
	We have conducted an audit to deter-
	mine the availability of staff to work in
	our setting, and will increase staff mem-
	bers if required
	A face mask should be worn if a distance A face mask should be worn if a distance
	of two metres cannot be maintained
	from a child who is symptomatic and
	awaiting collection. If contact is neces-

sary, then gloves, an apron and a face
mask should be worn. If there is a risk of
splashing to the eyes, for example from
coughing or spitting, then eye protection
should also be worn.
We will provide instruction and training
to staff on infection control, for example
putting on, taking off and disposing of
PPE. Correctly.
Updated emergency contact details are
in place for both staff and children.
We will ensure that all parents and car-
ers understand that if a child has corona-
virus symptoms, or there is someone in
their household who does, they should
not attend our setting under any circum-
stances.
We will keep group sizes to a maximum
of eight children (as preferable) so that
groups are as small as possible.
We will discuss with the local education
authority where we are unable to main-
tain sufficient group sizes.

• COVID-19 training completed.		COVID-19 training completed.

	 An extension of three months has been granted to the expiry of first aid certificates (including paediatric). Review of first aid needs assessment conducted, all Staff have either completed First Aid training or have been booked to attend this training ASAP. Consider new approaches that will need to be taken to minimise the sharing of resources between groups, for example for painting, sticking, cutting and outdoor construction activities, which should be thoroughly cleaned before and after use by different groups. Malleable resources, such as play dough, should not be shared between groups and public health advice is that, as sand pits cannot be thoroughly cleaned between uses, they should not be used at this time. Consider how resources can be used safely and in which circumstances, and which items it might be more practical to remove during this time. Plan how outdoor space, where available, can be used as much as possible. Ensure outdoor equipment and toys are appropriately cleaned between use by different groups.
